UPDATES ON COUNCIL MEETINGS

- In March 2020 we entered a new world with the onset of the Covid-19 pandemic. It has changed not only business landscapes but how we all interact with each other.
- During the early months council meetings were limited or zoomed until we were able to follow the CDC mandates once allowed to meet in person. These requirements continue to change as we enter the 2021 calendar year.
- **We are striving to meet needs of our population as we enter 2021 with additional guidelines / restrictions.** Please watch the Village Facebook page and the Village Website for instructions and links to view our council meetings live on line or a recording of the live council meeting at a later time.

STORM WATER BILLS

As you are aware on April 22, 2019 the McComb Village Council adopted **Ordinance # 2019-11** creating the Village of McComb Storm Water Management System.

Section 5 of Ordinance # 2019-11 states the following;

A storm water service charge will be billed to the owners of every parcel of land within the village that contains impervious area and contributes directly or indirectly to the storm water system of the village. This charge is necessary to pay for the repair, replacement, planning, design, regulation, education, coordination, improvement, operation, inspection, maintenance and enforcement of the existing and future storm water system. This charge is not related to water and/or sewer service and applies whether or not the property is occupied.

All residential properties, as defined, will be assigned one (1) ERU. A flat rate will apply to all residential properties.

All non-residential properties, as defined, will be assigned an ERU multiple based upon the properties' individually measured impervious area (in square feet) divided by 3,852 square feet (1 ERU) but in no event less than one (1) ERU. This division will be calculated to the first decimal place and rounded accordingly.

1 ERU = \$5.00 per month

The village bills property owners on a semi-annual basis. Property owners will soon be receiving their storm water bill, for the 2nd half of 2020 or if you did not pay the first half bill you will receive a billing for the entire year.

This is an investment in our community's future. Without proper investment into updating our antiquated infrastructure we will not be able to attract exciting new businesses into our struggling economy. Surrounding communities have had storm water fees in place for close to a decade.
