**SPRING PROJECT ZONING REMINDERS**

- Any outside building project (shed, pool, porch, fence, gazebo, new building, etc) requires a zoning permit.
- Applications are filed at the Village office. You will need a sketch of the project along with relevant measurements of any fence, building, etc as well as distance from all property lines. Our goal is to have your permit ready in 3-5 business days unless you need to review your application with the Planning Commission.
- *Reminder*--the Village is not responsible for determining property lines. If property lines are in dispute, the property owners are responsible for obtaining a survey at their own expense.
- Building in easements is not permissible and can result in sheds moved and fences taken down at the owner's expense.
- Call the village office in advance if you need assistance locating easements, permissible use questions and ordinances governing outside projects.
